

Hello Tornados! Here is the information you need for masks at school!

- **Masks must be worn by all staff and students at all times, even when outside. A Mask can be made of fabric or medical grade material and must cover the nose and mouth and fit well enough that it does not fall off.**
- **Masks may be bandana/gator style, tie behind the head, or be held on with ear fittings. The most important thing is that they stay on properly!**

Exceptions for wearing a mask include:

- *Eating a meal seated with appropriate distance.*
- *A doctor's note is provided and verified by the nurse.*
- *An accommodation is made in a 504 or IEP*
- **Face shields may no longer be used as a solo face covering.**
Exceptions: Staff may use a face shield for instructional scenarios that require facial viewing for a short period of time.
- **Cloth masks should be washed after each day of use. Disposable masks that are not soiled or damaged may be placed in a plastic or paper bag for 5 days and reused.**
- **Please talk to your students about the importance of keeping their mask on, never trading masks, and keeping their masks as clean as possible.**
- **Thank you for your helping us stay safe and in school!**
